FROM IDEA TO SUCCESS

Jets™ was founded in 1986 in the unique maritime community on the west coast of Norway, where passion, excellent craftsmanship and the commitment to always do better are centuries-long traditions.

Jets™ is today a market leader. The Vacuumator™ pump invented by Jets™ revolutionised the industry, and is now the heart of our globally preferred vacuum sanitary system.

We have constantly refined our ideas into solutions that provide practical, reliable and environmentally friendly benefits for the customer, and will always continue to do so.

Jets Vacuum AS, Myravegen 1, N-6060 Hareid, Norway
